Built-in	-

(1) Energy Consumption based on 220 standard washing cycles for cotton programmes at 60°C and 40°C at full and partial load, and the consumption of the low-power modes. Actual energy consumption will depend on how the appliance is used.

(2) Water consumption based on 220 standard washing cycles for cotton programmes at 60°C and 40°C at full and partial load. Actual water consumption will depend on how the appliance is used.

(3) 'Standard 60°C cotton programme' and the 'standard 40°C cotton programme' are the standard washing programmes to which the information in the label and the table relates and these programmes are suitable to clean normally-soiled cotton laundry and that they are the most efficient programmes in terms of combined energy and water consumption.
